

Thank you for inquiring about Cross Creek Christian Academy!

CCCA exists to provide quality Christian education in a safe and nurturing environment. Knowledge of ourselves and our world is taught as part of a God-honoring and exalting worldview centered on biblical truth. Students participate in an academically challenging curriculum that teaches the critical-thinking skills prized in modern education, while grounding them in the reality of our created purpose according to the truth of God's word.

- ~ Science is taught with God as Creator, Sustainer, and Architect of the universe
- ~ Mathematics instruction uses traditional methodology trusted for generations
- ~ Bible is taught as a daily subject and students memorize age-appropriate verses
- ~ Kindness, respect, and responsibility are taught, practiced, and expected from all ages

Cross Creek Christian Academy concentrates on development of the whole student - academically, emotionally, and spiritually - as part of an encouraging educational family where all students feel valued. Scheduling a tour is a great way to see if CCCA is a good fit for your student and family!

There is one more thing I would like you to know. Even as you receive this information you will have already been the subject of prayer. Our faculty and staff meet regularly to pray for current students, as well as prospective students and their families. May God grant wisdom and clarity as you make decisions regarding the education of your child.

In His Service,

*Mrs. Christy Kerby*

Administrator
